1) A company is developing a new mobile application. During the latter stage of the project, a competitor launches a superior product in the market, the expected return on investment has significantly reduced, senior management decides to shift focus to a more profitable project. The current project is gradually losing resources and attention.

question - Identify the most likely type of project termination, explain the reasons for terminating in this case, suggest one managerial action to handle the project closure effectively.

→ (i) Type of project termination -

- Termination by starvation.

(ii) Reasons for termination -

- market competition - A superior competitor reduces project relevance.
- reduced ROI - financial viability declines significantly.
- strategic shifts - management allocates focus to more profitable initiatives.
- resource withdrawal - budget, team and attention are gradually reduced.

(iii) managerial action for effective closure.

- conduct a formal project closure and documentation process.
- prepare final reports.
- archive project documents.
- release remaining resources systematically.
- knowledge is retained
- no loose ends remain
- organizational learning is captured.

Q. 2) A company is developing a mobile application. during the later stages of project, reports the following. the project is significantly over budget, deadlines have been missed reassigned to other critical projects. questions - based on the auditors finding, identify the most appropriate type of project termination justify your answer, explain the reasons leading to this termination decision.

→ (i) Type of termination -

- Termination by extinction

(ii) Justification

- Project is - over budget
 - behind schedule.
 - client no longer interest
 - team reassigned

- These indicates a complete and immediate shutdown.

(iii) Reasons for termination -

- financial failure - costs exceeds limits
- schedule failure - deadlines repeatedly missed
- loss of client support - no business justification remains.
- resource reallocation - organization prioritizes other projects.

- Together, these make continuous unjustification.

Extinction - Immediate and complete shutdown

Integration - gradual reduction of resources

Addition - projects becomes permanent

Integration - output absorbed into organization
